

# Type 'F' / Model 6 / Pressure Gauge

*Rugged  
Dependable  
Accurate*

- O'Drill-MCM gauge provides quick, accurate response to pressure changes and minimizes fluctuations by having a built-in dampening mechanism. The gauge is ideal for recording big pumps.
- Temperature range: -50°F to 120°F  
Liquid surrounding gauge mechanism minimizes wear from vibration and mechanical shock.
- Heavy-duty seals create water tight barrier around gauge mechanism.
- Combination threaded male 2" line pipe and threaded female 1" line pipe connection.
- Type 'F' gauge is 9 1/8" high and 4 7/8" wide with a 3 1/2" dial for easy reading.
- Clear lenses are installed for easy reading from a distance of 20 to 30 ft.
